The Dream Team

Junji Tankiguchit

The most important person in conducting teaching seminars is the facilitator. The Dream team is fortunate to have Junji Taniguchi in this position here in Chiang mai. His career has been totally involved in organizing students engaged in attending specialist classes. In putting together special classes in Japan for blue-chip companies. Arranging the teaching of English to appropriate levels for positions in English speaking countries. Fifteen (15) years in handling difficult tasks in people organizing logistics make him an ideal dream team member to make comfortable our visiting NLP scholars.

WHAT IS NLP?

N.L.P. Neuro-Linguistic Programming

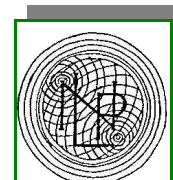

Words to describe a psychological discipline that: enables fast behavior change; improves mind-body performance; eradicates loss of 'cool, helping relationship skills, are hard to find.

Several people have tried to do this here are their attempts:

In the foreword to the book 'Frogs into Prince's' a first book to read on N.L.P.

Steve Andreas the author writes

"Using the principles of N.L.P. it is possible to describe ANY human activity in a detailed way, that allows you to make many deep and lasting changes, quickly and easily.

and; **"When N.L.P. is used systematically it constitutes a full strategy for getting any behavioral gain".**

and; **"N.L.P. can eliminate many of the difficulties and hazards of living that we now experience, and make learning and behavioral change much easier, more productive, and more exciting.**

We are on the threshold of a quantum jump in human experience and capacity."

a Harley Street London Psychologist

"This may sound a little over the top, but the strategies of N.L.P. really are magical in effectiveness.

I know because for Fourteen (14) years they have been the main cause of dramatic behaviour change

The Internet carries over **2 Million pages** of information on the N.L.P. subject.

Most of these are selling NLP practitioner and trainer training courses.

Here in Chiang Mai we are offering a customized NLP course. Something different.

These will include a work-shop style 10 hours minimum. Options are in having one-on-one consultations.

Page 2 shows the dream team in action for your support and benefit as an NLP Scholar.

Page 3 shows list of career and life-style options, where others have succeeded.

The course is low cost-good value in comparison to America-Europe courses.

Air-fare-hotel-food-course and fun time here in Chiang Mai at less than local course, check it out.

See some new approaches in mental mind control. No harm to a personal style,

or no suggesting radical changes in attitude. Maybe like defragging the mind of the baggage.

The N.L.P. knowledge and used will certainly reduce mental tiredness in day long actions.

Join this special workshop designed to use N.L.P in living.

Why Chiang Mai?

Thailand's principal northern city. Chiang Mai is the provincial capital of a largely mountainous province, also called Chiang Mai, some 20,000 square kilometers in area.

Chiang Mai city is 700 kilometers north of Bangkok, was founded in 1296, and is located in a fertile valley some 300 meters above sea level.

C.M. was the capital of Lanna Thai (Kingdom of One Million Rice fields), the first independent Thai kingdom within the fabled Golden Triangle.

Many Thai people regard Chiang Mai city and province as being something of a national Shangri-la, thanks to its beautiful women, distinctive festivals, historic temples dating from the 1300s, arresting scenic beauty, temperate fruits such as apples peaches, strawberries, and a crisp, invigorating cool season climate.

N.L.P. knowledge combined with fun-events makes Jack and Jill such interesting people

Join us in Chiang Mai for Basic N.L.P. Personal development.

From: Ray Trevor Twine MA (Psychologist)

*Starts: You will see how these mind strategies lead one towards well trained
happy staffers. but before looking at those some personal history.*

*Fifteen years ago I sat enthralled by John and Michael Grinder Judith Delozier,
Charlotte Bretto and others at Santa Cruz University as they
showed me the value of Neuro-Linguistic Programming.*

Later on Richard Bandler held me spell-bound with his brand of NLP magic.

Having been intrigued by the book 'Frogs into Princes' I went to find out more.

*Going to the States and metaphorically sitting at the feet of the people
who fashioned this psychology discipline Neuro-Linguistic Programming.
It is in part an examining-copying of experts. A 'modeling of excellence'.*

*In clinics over the years. so many successful outcomes have been witnessed..
People achieving a new personal best performances, making changes from poor habits attitudes.
In training, managing people, in maintaining worthwhile relationships.*

Now Stephen and I want to show you how N.LP will make a difference to your team.

The venue:

Chiang Mai Asia is very safe, comfortable, among a happy nation of people.

Costs:

Outlay of money to gain the knowledge is very low in comparison to America and Europe.

Why Travel to Learn:

*Bringing people away from their natural environment, gains a memory-holding result.
A freedom from cell-phones reminders of job-home-tasks, the easy drop-out is no longer easy.*

The clear awaiting mind is ready to learn.

On offer is NLP training to organizations who want to dominate.

*NLP training for **health-care professionals, major educators, teachers,
consultants** in all subjects. Leisure and personal relationship skills an extra bonus.*

*We propose to **custom design programs** tailor-made
for organization **training** and the individual
Career and life-style mind-tools,
strong resources with life-time lasting effects.*

*we look forward to welcoming you personally
and your special needs group.*

Ray Trevor Twine

Asia is the best place in the world to demonstrate behavior changes

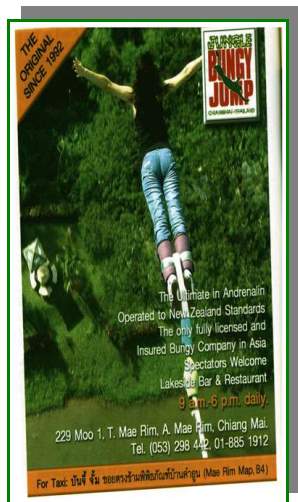

The World

It is in need of difference.
Patterns in NLP show us
how to make changes.

In perception, in gaining
flexibility, stimulating
an outcome of value.

That giant 'step forward'
someone mentioned is
made more of a possibility
when resources of NLP
are in the mind of the team.

A prelude to orchestrate
necessary differences perhaps!

Asia

Profiting from a new market opportunity
is easier where competition is missing.
Western organisations with experience
have high success possibility.
They could take the bungee jump!

Here in the hub of the Asia market
NLP-Thailand are busy
making sure the safety harness
is designed and comfortable.
Helping to make the landing a
'feel-good' experience.
